4-Quart Drop-In Induction Rethermalizers

DESCRIPTION

4-quart Drop-In Induction Rethermalizers use innovative technology to run dry (without water) to improve food quality and minimize waste, while using a fraction of the energy. They ship with an induction-ready inset and improved ergonomic cover so they are ready to use upon arrival. This smaller version of our 7 & 11 qt round induction units gives you an option to expand your product offering with sauces, soups, and other items available in smaller quantities.

PERFORMANCE CRITERIA

Vollrath® Countertop Induction Rethermalizers are designed to take a container of cooked food from a chilled state (below 40.0 °F (4.4 °C) through the HACCP “danger zone” of 165 °F (73.9 °C) in less than 90 minutes. The performance standard is measured using the NSF mixture chilled to 35 °F (1.7 °C). The electric unit will raise the temperature of this product above 165 °F (73.9 °C) in less than 90 minutes. The temperature will be maintained above 150 °F (65.6 °C) when the food product and pan or inset are used with a standard pan or inset cover, and the food product is stirred regularly.

WARRANTY

All models shown come with a Vollrath® standard warranty against defects in materials and workmanship. For warranty period, exclusions, and details, visit vollrathfoodservice.com/vollrath-resources/warranty-info/warranty-policy.

NOTICE: Use only Vollrath induction-ready insets; failure to do so voids the warranty.

ITEMS

Item	Description (Products for US and Canada)	
74401D	4-qt. Rethermalizer	Includes 1 Inset and 1 Cover
74401DW	4-qt. Warmer	
Accessories	Description	
7440140-DT	Drip Tray	
60178	4-qt. Cover	
88164	4-qt. Inset	
88164NS	4-qt. Nonstick Induction Inset	
*Nonstick insets are made to order; call Vollrath for minimums and lead time.		

FEATURES & BENEFITS

- 400W 3D induction coil heats food evenly and efficiently.
- Units operate without water, eliminating well refilling.
- Sensors in three locations activate the Stir Light.
- Stir light reminds user to mix to reduce burning and waste.
- Advanced controls have highly-visibility LEDs.
- Temperature setting includes °F and °C.
- Inset is designed to work with Server Pump #83200.
- Eight presets for chocolate, cheese, soups, etc., simplify use.
- Locking function prevents unauthorized setting changes.
- Temperature limit of 190 °F decreases burning and waste.
- New easy-to-grip cover handles enhance user experience.
- Included cover and inset provide what is needed for use.
- Additional covers and insets for pre-filling are sold separately.
- Meets NSF4 Performance Requirements for rethermalization and hot-food-holding equipment.
- Bottom-exit 6' cord (1.8 m) power, 58" (1.5 m) control cords, and included hardware simplify installation.

CLEARANCE & REQUIREMENTS

- Use only Vollrath induction-ready insets; failure to do so could cause damage and void the warranty.
- All models require unrestricted air intake and exhaust for proper operation.
- Ensure unit is level to avoid damage during operation.
- Ambient temperature must be at or below 110 °F (43°C) and is measured 1" (2.5 cm) from bottom side of unit while all kitchen appliances are in operation.
- Side clearance is not required.
- Minimum clearance of 4" (10.2 cm) is required at the rear of the unit and any surrounding surfaces for the Control Box.
- To avoid damage, plug the unit into a properly grounded electrical supply that matches the nameplate rating.
