

HANDS-FREE DOOR OPENERS

One of the best ways to keep surfaces clean is by not letting them get dirty in the first place. Our hands-free products eliminate the need for customers and staff to touch doorknobs with their hands, limiting the transmission of germs and other particles

- No-hands operation helps reduce the number of times handles are touched
- Easy to assemble on traffic doors, double-acting doors, cooler doors, swinging doors or latching doors with the latch disengaged
- Door openers also make operation easier when hands are full
- Durable stainless steel construction
- Yellow grip tape on surface of foot door opener provides an extra secure hold
- Kit includes arm door opener, mounting hardware and label - ideal for doors with tubular-style handles
- Instructional label included - adhere to door for quick visual cue
